LOCAL BREVITIES.

A PAINFUL ACCIDENT.—Mr. Miles Murphy, a laborer at the Virginia Midland depot, while working in the yard near the machine shops of the road, yesterday evening, met with a painful and quite serious accident. A heavy iron locomotive tire, which he was helping to move, fell on his right leg, crushing it badly between the knee and ankle. The injured man was removed to his home, corner of Prince and West streets, where it was found by the attending physicians, Drs. Powell and Stadler, that he had sustained a compound fracture.

INCORRECT.—The Philadelphia Times says: "Johnny Thompson has struck upon a novel expedient to draw a house." At Alexandria, Va., last week, he announced that a vote would be taken among the audience to decide who was the handsomest lady in the city, and that a valuable prize would be given to the favored one. The idea took. He had large audiences for three nights.

The idea did not take; on the contrary it was jointly condemned, and the audience was small.

NOT A MAN BUT A POLE CAT.—Engine No. 32, which ran down a slight embankment on the Manassas road during the heavy snow of a month ago, was gotten on the track again yesterday. The stevedores about the engine caused the laborers engaged in the work to imagine that the body of a man, who had been crushed to death, was under it, but, to their surprise, when the iron horse was finally removed, not the body of a man but the body of a pole cat was found.

STEAM VS. MUSCLE.—Two things absolutely necessary to make perfect roasted coffee is the necessity of heat and regularity of motion; these can only be obtained by use of steam. The opposite is clearly shown in hand roasted coffee by its many imperfections. All choice grades of coffee will swell when subjected to a uniform heat. McBurney's Steam Roasted Coffee are always the choicest grades. Their daily increased sales is a good proof of superiority of their Steam Roasted Coffee over that roasted by the hand machine and muscle.
